WORK EXPERIENCE

Internship, MasterDynamix, Kyiv November 2022 — November 2022

Internship on a real project. Interaction with the team through Jira. Functional and UX/UI testing of the Report menu. Created a checklist for testing and test cases. Wrote bug reports in Jira.

Apprenticeship, QWASAR Silicon Valley November 2022 – December 2022

Introduction to fullstack development. Completed 15 projects in addition to coding exercises at Silicon Valley standards covering fundamental concepts of fullstack engineering in Javascript programming. Gained practical experience in coding using HTML, CSS, Javascript. Learned to work with the terminal and GIT.

Chief accountant, online store “rezina.cc”, Kharkiv September 2015 – May 2022

Communication with the IT department regarding the development of new features for accountants. Experience with CRM systems. When my department needed work automation, I provided my ideas to the IT department where some functionality should be added and what this functionality should do. The IT department coded and handed over their developments to me for testing. When I found bugs, I contacted the IT department to fix them.
